How to Vote; Do Not Write 'Yes'or' No'on Your Ballots; What Amendments Mean

Three Ballots Will Be Given You When You Enter Election Booth, One Containing Names of Elective Candidates and the Other Two Bearing on Important Changes in State's Basic Law.

At the voting booting to t-morrow each registered voter was ne given three ballots to be marked and eleposited in the form. One ballot will contain the names of candidates for yar four elective offices which will be similar in form to those of previous years. The other two ballots, however, relate to the Constitutional questions that are to be voted on this year. Each question will be set forth by itself with two small squares opposite it for marking. Much attention was attracted to the

Do not write in the squares the word "yes" or "no," but mark an "X" in the square, similar to the mark put before the name of a candidate on the elective ballot. The Constitutional ballots are divided into two sheets each | land legislation to California which :-containing three questions. case because several foreign governments had protested against the law and because of its similarity to the

The Arisona law was enacted by the citiative vote of the people of Arteona and made it unlawful for any employer of more than five persons to employ less than eighty per cent. qualified electors or citizens of the United States. The case passed on by the court was one in which an Austrian waiter in Hisber, Ariz. sought to enjoin his employer and the State from enforcing the law as to

Justice Hughes, in appounding the court's decision, said it had already been established that aliens in this untry were entitled to the equal protection of laws.

tection of laws.

"And that means equal laws for aliens and citizens." he added.

Justice Hughes declared that the law was in conflict with that personally guaranty of liberty accorded aliens by the Constitution. The law, he said, would exclude aliens from Arizona as aliens could not live where they could not work, and the result would be that although the United States had the power of admitting aliens to the country the States could keep them out by such legislation as the Arizona law. the Arizona law

Question No. 2 relates to the apportionment of representation in the combined. It continues the legislative domination of up-State over the state over the company. This up-State over the crument," said Justice Hughes. The this article should be assertion of an authority to deny to allens the opportunity of carning a silens and New York livelihood when lawfully admitted to the State would be tantamount to the assertion of the right to deny entrance

and abode, for in ordinary cases they cannot live where they cannot work.

"If such a policy were permissible that those lawfully admitted to the country under the authority of the acts of Congress, instead of enjoying in a substantial sense and in their fail. substantial sense and in their ful scope the privileges conferred by the admission, would be segregated in such of the States as chose to offer

independent, versatile, maintains high ideals, is well educated and is economically self-supporting. In the earlier days a girl was learned how to sew and cook, and trained for the home, was taught the rudiments of education, knew a few parior accomplishments for the entertainment of her friends. Marriage was her only field of development. To-day a girl may be a physician, a lawyer, an architect, an accountant. a manager of various departments of work, an artist in music, painting or sculpture, and there are few fields which she may no: enter with a good chance of success. One needs only to look around at the many women who have succeeded in various occupations to realize what can be done by any girl of to-day.

"I, as a girl of to-day, am giad to be living in this wonderful age of opportunity and development, heving

preference to the fashions of forme reference to the fashlons of former cars. Ours are far more healthful.

"No, indeed, we are not the weak, fainting, clinging vine sort that our grandmothers were. I use paint and powder, and yet I could join the business world to-morrow and support myself just as well as I can run my house. Nine out of every ten girls nowadays are trained to be self-reliant, and we resent being called failures. We aren't: WE ARE A SUCCESS. We are healthy, happy and intelligent. So there!

ONE OF THEM" TELLS WHY SHE IS A SUCCESS.

"Dear Madam: That the girl of to day is a success seems to me an in-disputable fact. She is perfectly in-dependent, since she has learned how to us eher brain to advantage, and has attained a position of importance in the business world. She supports herself oreditably and often two or three other members of her family. What if she does use a little pow-

husband's income is and uses it accordingly, getting for the money just twice as much as our grand-mothers did, and thereby making squarest, most attractive pal that
